

### PROJECT BRIEF

The client was looking for a school furniture design which offered functionality for their new D & T block and created an inspirational space for their students and staff. The brief was to maximise the available workspace by providing a range of storage facilities throughout the various rooms.

Each teaching space included a teaching wall with sliding whiteboards and a separate bag storage unit. For practical rooms it is important to store any clutter away from the workspace in order to maintain a safe working environment. The school wanted to create a bright environment and selected a range of striking colour combinations with contrasting trays and door edging. The D & T rooms were equipped with multi media workstations and overhead flexible power cables. The whole project was required to be completed on a tight schedule but the Klick installation team worked well with the other trades on site and everything was handed over on

D & T room with tall storage & teaching wall

A1 plan chest drawers for art room

D & T prep room with hazardous substance storage

Science lab with serviced bollards & loose tables

### Testimonial

"I recently had the pleasure of receiving an outstanding service from Klick Technology that I would like to share with others. The supplier in question was a company based in Manchester that I had been recommended by a colleague for their quality products and exceptional customer service.

My experience with Klick exceeded my expectations in every way possible. From the initial contact to the delivery of the product, the entire process was seamless and hassle-free. The staff were knowledgeable, friendly, and provided me with all the necessary information about the product we were interested in purchasing, which helped me make an informed decision.

Moreover, the attention to detail and personalized service I received was truly impressive. The supplier went above and beyond to accommodate our specific requirements and ensure that we were completely satisfied with the purchase. Their commitment to providing excellent service was evident, and it made a significant difference in the overall experience.

In addition, the quality of the product was exceptional, and we are extremely satisfied with the purchase. It has exceeded our expectations and has added value. Overall, I would highly recommend Klick to anyone looking for high-quality products and exceptional customer service. They have set the bar high for other suppliers in the industry, and I look forward to doing business with them again in the future."
